HARNESSWORKS

WIRE HARNESS ASSEMBLY

ASSISTED AUTOMATION
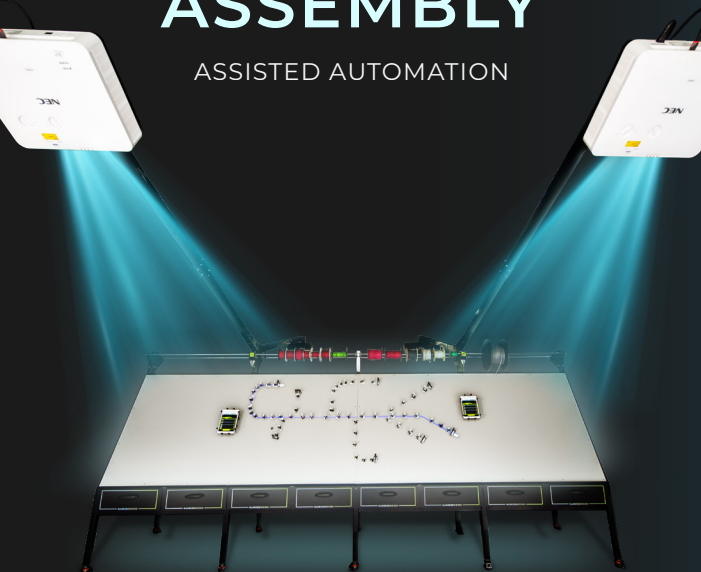

Simplify Complexity

HarnessWorks simplifies the process of building wire harnesses by projecting step-by-step instructions directly onto the harness board. This is achieved through an integrated hardware and software solution, designed with the end-user in mind.
STEP-BY-STEP WORK INSTRUCTIONS

IN STUNNING 4K

BORDERLESS
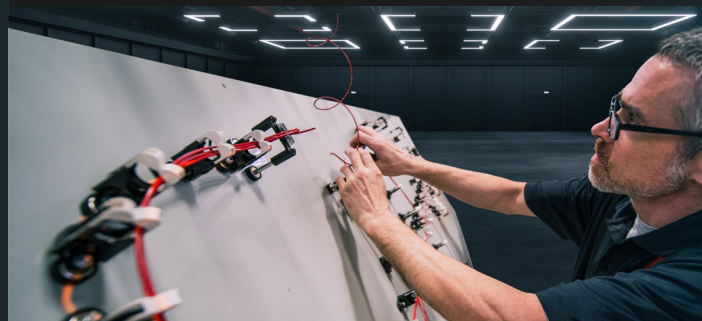

SEAMLESSLY EXPANDABLE WORKSPACES

No Limits

Connect harness boards end-to-end to fit wire harnesses of any size.
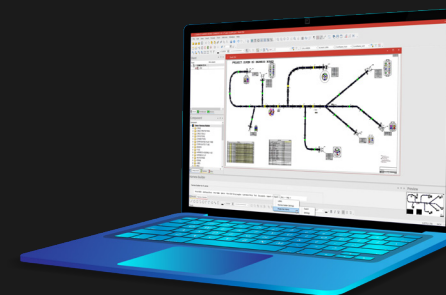

RECONFIGURABLE

MAGNETIC ACCESSORIES

IMPORT DATA
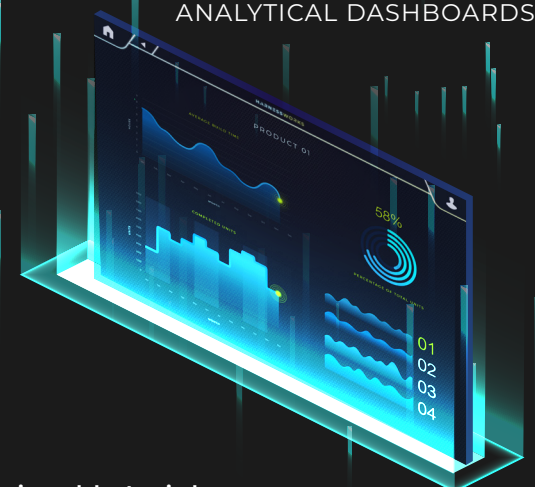

FROM YOUR DESIGN SOFTWARE

Extend the Digital Thread

Leverage your smart wire harness data from your existing wire harness design software by importing your files into HarnessWorks and parsing them into easy to understand step-by-step projected work instructions, all controlled from a web browser.

PRODUCTION VISUALIZATION

ANALYTICAL DASHBOARDS

Actionable Insights

Managers have unprecedented insights into the production floor as HarnessWorks displays real-time activity dashboards and long term trends.
